

PRESS RELEASE

AUTOMATIC SYSTEMS ANNOUNCES NEW PARKPLUS 244 – PARKING BARRIER WITH SEMI-REINFORCEMENT ARM

UK and Ireland – May, 2015 – Automatic Systems, a world leader in the automation of secure entrance control introduces the new **ParkPlus 244**, an innovative product designed to meet the needs of all parking operators.

The ParkPlus 244 barriers are designed with aluminium semi-reinforced arms enabling greater parking security.

With **ParkPlus 244**, you can:

- Increase the security of your sites
- Create SAS access
- Choose the automatic opening in case of power failure

BENEFITS

- Assimilation of major traffic flows on entry and exit
- Generates revenue
- Promotes and supports brands
- Easy integration at site
- Easy to install and low operating costs

Come and visit us on stand F1650 at this year's IFSEC at Excel London on the 16th – 18th June where will be showcasing our ParkPlus 244 along with a range of other products within our portfolio.
