Z-Wave Smart Home Kit

Smart Home Total Solution

The Smart Home Kit includes a pan/tilt Z-Wave camera, a Z-Wave power plug and a Z-Wave 4in1 sensor.

The Z-Wave Pan/Tilt IP Camera is a Smart Home Solution on a Camera (SoC). This is an IP camera with Z-Wave controller/gateway functions integrated inside. With this camera, you can control/monitor all Z-Wave devices in your house through your iPhone/iPad and Android mobiles/pads.

The basic setup of this camera is truly 1-2-3 :

- 1. Connect the camera to the network
- 2. Download the app mCamView Z+ into your iPhone/iPad or Android
- 3. View video of the camera and control/monitor the Z-Wave devices.

Z-Wave technology is an innovative wireless communication protocol for smart home usage. With this technology integrated, the Z-Wave camera can easily control/monitor all Z-Wave devices, including door-lock, curtain, lighting, power plug, electronics and sensors.

The push notification is supported, so that you will get the notification from your iPhone/iPad and Android once there is any events detected through the motion or sound detector on the camera or any Z-Wave sensors, even when your mobile is on sleep mode.

The SD card recording is supported, and you could playback the recorded video on your iPhone/iPad and Android. You could also do the SD card recording only when there is motion or sound detection to save the SD card storage size. The motion and sound detected recording has a 5 seconds pre-recording, so that you will always catch the critical moment.

The NAS storage is supported. You can record the video files into any normal NAS devices. And you can playback those recorded video files remotely on your mobile devices or computers.

For day & night usage, there are two video sensors/lens on the camera, one for day and one for night. The day lens and night lens focus are separately tuned for day light and Infra Red light for best video quality. No ICR, no mechanical problem.

Two-way audio is supported. You can monitor the synchronized video/audio and talk to or warn the people around the camera from your iPhone/iPad and Android once you got the push notification. There is a built-in speaker for this two way audio usage and also for speaker alarm usage.

The WPS(WiFi Protected Setup) is supported. You could set up the WiFi connection of the camera with the router by clicking the WPS button on the camera and on the router at the same time. No more complicated WiFi configuration.

The Z-Wave IP camera is ideal for your smart home usage, integrating the usage of all the available Z-Wave devices in the market will make the application infinite and make your home life out of your imagination.

Features

Camera with Z-Wave controller/gateway functions integrated.

- Support Zwave devices control, room control and scene control.
- ➢ Control up to 20 Z-Wave devices.
- Control up to 10 rooms, each room allows max of 20 devices.
- Control up to 20 scenes, each scene allows 6 events and 6 actions.
- Allows alarm notification for each Z-Wave devices and each scene.
- Pan/tilt control.
- Plug & play by ID/password, no IP address or DNS settings.
- ➢ H.264 video compression
- ▶ Mega-pixel for up to 1280x800 resolution at 30 fps.
- ➤ Two sensors/lens for day and night separately.
- Two way audio.
- SD card video recording with 5 seconds of pre-recording..
- ▶ 802.11 n wireless with WEP and WPA/WPA2 security support.
- > WPS (WiFi Protected Setup) support.
- > Triple video streaming on PC, mobile and SD card recording.
- Night mode control support automatic, manual and scheduled modes.
- Connect up to 20 users simultaneously
- Bundle with free video management software CamView.
- Push notification on iPhone/iPad and Android for motion and sound detection.
- Email/ftp alarm message for motion and sound detection.
- Event scheduling.
- Video recording on NAS device.
- Internal real time clock
- > Watchdog function to prevent system failure.
