ComNet's Unique & Flexible Layer-2 Managed Commercial Grade Switch To Be Unveiled @ IFSEC International 2017

The all new **CTS24+2** is a fully managed layer-2 commercial grade Ethernet transport system/switch with up to 24 ports of 10/100 Ethernet and two ports of 10/100/1000TX or 1000FX transmission. The CTS24+2 series allows for **ultimate flexibility in combining standard copper, optical, and extended distance Ethernet all in one** rack mounted chassis configuration.

Optional PoE+ allows the user to customize a solution to fit a specific application in a 1 RU rack space. The system includes a chassis with optional PoE supplies of 400 or 1000 Watts.

Up to three 8 channel modules can be ordered to populate the system. These modules are offered in conventional CAT5/6 10/100 Mbps Ethernet, 100FX optical SFP, or CopperLine® Coax or UTP interfaces.

CTS24+2[POE][HO] Modular Ethernet Managed Switch

- A unique and flexible layer-2 managed commercial grade Switch
- Provides up to 24 ports of 10/100Mb Ethernet
- 7 different 8 port modules available
