

ENVISION COMMAND CONSOLE

ENVISION - THE NEXT GENERATION CONSOLE

Winsted's NEW EnVision Command Console is the next-generation console built for today's technology. A progressive new modular design offers the perfect balance of form, function and ergonomics suitable for any control room application large or small.

PRODUCT FEATURES AND HIGHLIGHTS

Multiple Configurations

EnVision comes standard in 42", 60" and 84" widths and can be designed as a single, double or triple tier configuration. Each tier can support single or dual Slat-Wall sections for a track height of 7-1/2" or 15". Combine multiple widths with your choice of corner angles to create the perfect solution.

Multiple Work Surface Options

Choose from four work surface options: Our proprietary Endurance Plus and Comfort Edge work surfaces, as well as Corian® and Marmoleum® are available for all our consoles. We offer durable work surface configurations suitable for all control room environments, no matter how demanding.

Adjustable Monitor Mounts

VESA-compliant pivot/tilt mounts easily attach monitors to the Slat-Wall and provide smooth pivot and pitch adjustment for optimal viewing angles and ergonomic sight lines.

Slat-Wall Accessories

Put the finishing touches on your console and maximize it's functionality with a wide variety of accessories specifically designed to mount on EnVision's Slat-Wall.

Removable Rear Access Panels

EnVision's support legs feature full-length removable rear access panels to provide quick and easy access to cables for simple installation and reduced maintenance time.

Extra-Deep Rear Cable Tray

Cable management should be convenient and flexible. EnVision Command Consoles come standard with a cable trough that simply hooks onto the Slat-Wall, no tools required. Place the cable trough where you need it and you'll have fast, easy access for installation and maintenance and upgrades. The extra-deep design allows room for power outlets and large cable bundles on integrated lacing loops.

Work Surface Cable Tray

Located where you work the most, the integrated cable tray located behind the work surface keeps your work area clean and organized while protecting and organizing your wires and cables.

Adjustable CPU Holder

CPU mount provides easy access to the front and rear of your computer system. The articulating mount extends forward, includes a 90° swivel, and fits CPUs from 13-1/2" to 21-1/2"H by 5-3/8" to 9-3/8"W.

Powder-Coat Paint

EnVision's steel infrastructure is coated with a durable black powder-coat paint that accentuates the work surface and Slat-Wall. The elegant textured finish prevents fingerprints and provides uncompromising durability.

Slat-Wall Mounting System

Constructed of high-quality extruded 6105-T5 aluminum, the Slat-Wall system can be designed as a 7-1/2" or 15" high solution designed to support a variety of monitor mounts and convenient accessories. Multiple mounting positions on each tier means the Slat-Wall can be positioned exactly where you need it.
