

# Distance Learning

## **ONLINE** courses ... the future of training

Around the world, more and more students are turning to internet based training courses to acquire and develop their vocational skills ...

Let YOUR computer open the door to a new, exciting future in Security Systems

- **ENJOY your studies anywhere and at any time.**

Global internet connectivity has revolutionised the way we communicate, work and learn. Today, your computer gives you total freedom to study on your own terms. Day or night. Evenings or weekends. Anywhere worldwide. You decide!

- **CHOOSE your own pace, according to your lifestyle.**

We all have different capabilities and different lifestyles. ONLINE learning lets you be yourself. With no pressure to keep pace with your classmates, you can stop, start and revisit subjects as often as you like. It simply makes life easier!

- **RECEIVE personal, interactive support every step of the way.**

However remote your location, you will never be alone on a Tavcom ONLINE course. You will be assigned your own personal tutor, available by email, who will be there with support and guidance as you work through every module.

- **BENEFIT from huge financial savings over other forms of training.**

Bed and Breakfast. Hotel accommodation. Fuel. Air and train tickets. Days of lost income. These hidden expenses increase the cost of traditional classroom training. Study ONLINE and save. No early starts or traffic jams, either ...!

- **GAIN internationally recognised and respected BTEC qualifications.**

A different form of learning does not mean a different qualification! Tavcom's ONLINE courses provide you with exactly the same professional qualifications as those awarded to our classroom students ... up to BTEC Diploma Level 5!

All the fundamental skills you need to design and commission access control systems within the scope of the international standards are provided in this fully interactive and highly enjoyable online course.

### ONLINE COURSE DL-PHOTO

Available  
**MARCH 2013**

#### Professional Practices of Photography (BTEC Diploma)

Covering aperture, shutter, lenses, ISO, accessories, lighting and more, this course enables you to use all the functions of your digital camera with confidence. Make sure the image you imagine is the image you capture!

Put that knowledge into practice! We have now added additional **WORKSHOP DAYS** at many locations in the UK and around the world. Please contact the Tavcom team on +44 (0)1489 895099 for more details.

# The Tavcom ACADEMY

**NEW!**

## Great reasons to JOIN!

Join the new Tavcom Academy and enjoy **EDUCATION** and **INFORMATION** at the touch of a screen!

Subscribers receive **BIG** discounts on our full range of **ONLINE** training courses, together with privileged access to additional learning materials, technical tips and product test results.

In addition, you will receive regular 'hot news' bulletins of emerging technologies and products, changes to Standards and more! In short, we will keep you fully in touch with every important new development in the rapidly changing security systems industry.

-  **Online Education:** You will receive a monthly online Educational Learning Module covering subjects from humble housings to the latest biometrics technology. These short, easy to understand interactive packages will allow you to boost your knowledge of every security systems sector ... anywhere and at any time.
-  **CPD points: Continuing Professional Development** - a commitment to structured skills enhancement for professional competence - is now a requirement across all industries and services. The Tavcom Academy will allow you to acquire valuable CPD points as you update your skills and knowledge.
-  **Accredited Tavcom Courses:** Enjoy seamless, easy access to Tavcom's accredited e-Learning packages at preferential rates and gain internationally recognised and respected **BTEC qualifications** in a range of subjects including CCTV, IP and Networking, Intruder Alarms and Access Control to name a few. Let your computer open the door to a new, exciting future in Security Systems.
-  **Independent Product Testing:** Every year, using the skills of our specialist tutors, Tavcom undertake a number of independent product evaluations, putting the equipment through its paces in a number of measurable and repeatable tests. These **unbiased reports** are made available to all subscribers of the Tavcom Academy.
-  **Industry News:** Keeping 'up to speed' with the latest products and technology is difficult at the best of times so the Tavcom Academy portal will incorporate **an area dedicated to new technology**, providing manufacturers with a 'virtual' showcase and Academy members with the opportunity to see 'what's new'.
-  **Standards Updates:** Tavcom Academy's interactive and innovative approach to online learning takes you on a journey through the current pan-European and Worldwide Standards affecting the security system arena. Our **notification service** will update all subscribers once updates or changes to any Standard have been completed.
-  **Online Training Needs Analysis:** With this unique online tool, we are now able to carry out professional TNAs as a **bespoke service**. These represent an effective talent development programme for yourself or your company by identifying existing capabilities and ensuring correct training needs are identified.
-  **Tavcom Technical Tips:** They're back! Over nearly 20 years of trading Tavcom Training has produced many technical tips to encourage and help its students and allow them to fix problems in the field. Every month you will receive a brand new technical tip to supplement your personal expertise.
