Real Time Personal GPS
and GSM/GPRS Communication Device

CREATING A SENSE OF SECURITY
SINCE 1989

www.activetrack.pl/en

MAIN FUNCTIONALITY AND BENEFITS:

- Real time asset tracking & Guard Tour system
- TWO WAY voice communication device with only pre-programmed outgoing distress calling but incoming voice calls
- SEND signal via GPRS to monitoring station with reply request
- RECEIVE incoming calls
- PERSONAL protection system – PANIC button
- MAN-DOWN motion sensor for fall detection (lone worker protection)
- ActiveView application for tracking GPS location in real time:
- Virtual tag as a command (beep in device on start a route)
- Virtual tag as a geo zone (route which include geofence)
- Present name of tag in panel events

NOW THERE IS MUCH MORE APPLICATIONS -

you can use our device in buildings with fixed RFID points or in big areas, where GPS is necessary:

- Lone worker protection (Lone Worker Protection, MAN DOWN function)
- VIP protection
- Protection for elderly people and the sick (Alzheimer's disease, epilepsy)
- Care over children
- Protection for organized groups - tourists, children
- Escort for valuable shipments / persons - the possibility to determine the route and alarm about a deviation from its course
- Servicing, inspections, marking control points through readout of the GPS location and the RFID transponder with an appropriate message
