HD Ultra Cameras

# HD Ultra X Cameras: Overview

---

New cameras from IndigoVision including HD Minidome, Bullet and PTZ form factors.  
All with 2019 NDAA Compliance and 5 year warranty included.

# HD Ultra X Minidome: Overview

---

- 2.8mm-12mm and 7mm-22mm lens options
- True WDR 140dB
- Dual 1080p with 30fps
- Ext: -40°C to +50°C on PoE
- H.265
- CyberVigilant® in Camera
- Motion detection and ACF upon initial release
- Advanced Analytics filters and ACF+ coming soon

# HD Ultra X Bullet: Overview

---

- 2.8mm-12mm and 6mm-50mm lens options
- True WDR 140dB
- Dual 1080p with 30fps
- -40°C to +50°C on PoE
- H.265
- CyberVigilant® in Camera
- Motion detection and ACF in upon initial release
- Advanced Analytics filters and ACF+ coming soon

# HD Ultra X Pendant PTZ: Overview

---

- 4.3mm-170mm, 40x motorised Zoom/Focus lens
- True WDR, 120dB
- Dual HD/1080p with 30fps on both streams
- G.711 and AAC audio support
- -40°C to +50°C on PoE+
- In-Ceiling: -10 to +50 on PoE+
- IP67 & IK10
- In-Ceiling is UL2043 certified
- H.265
- CyberVigilant® in Camera
- Motion detection and ACF upon initial release
- Advanced Analytics filters and ACF+ coming soon

# HD Ultra Camera Range: Overview

---

New cameras from IndigoVision including HD Minidome, Bullet and PTZ form factors.  
All with 5 year warranty included.

# HD Ultra Minidome: Overview

---

- SMART.core technology including optimised H.264 compression and ACF+
- Improved Low Light and 140dB WDR
- CyberVigilant® in Camera
- Advanced Analytics
- Dual HD/1080p with 60fps on both streams
- 4.1mm-16.4mm and 7mm-35mm Motorised Zoom/Focus lens options
- -40°C to +60°C on PoE+
- IP67 & IK10

# NEW HD Ultra Bullet: Overview

---

Full details confirmed upon release of datasheet, however includes:

- SMART.core technology including optimised H.264 compression and ACF+
- CyberVigilant® in Camera
- Advanced Analytics

# HD Ultra PTZ Pendant: Overview

---

- SMART.core technology including optimised H.264 compression and ACF+
- Improved Low Light and 120dB WDR
- CyberVigilant® in Camera
- Advanced Analytics
- Dual HD/1080p with 30fps on both streams
- 5.9mm-180mm, 30x motorised Zoom/Focus lens
- -40°C to +70°C on AUX power
- IP67 & IK10

# SMART.core™

---

IndigoVision's SMART.core™ technology gives you bandwidth savings and lesser storage requirements, faster stream start-up, intelligent video and audio analytics, enhanced low light and PTZ control performance with improved bi-directional audio.

# SMART.core™

Up to 25% less bandwidth and storage with our highly optimised H.265 efficient compression.

Reduce bandwidth and storage by up to 50% when no motion is detected with Activity Controlled Framerate (ACF).

Built-in analytics including Motion Detection, Intrusion, Tripwire and more filters alerts operators when events are triggered.

Superb low light performance allows you to see in greater detail in low lighting conditions.

Ultra low PTZ latency for intuitive and fluid camera control allowing you to track and follow moving subjects with ease.

Hear more and communicate easier with two-way hi-fidelity audio; fully synchronised with video and lip synched.

# CyberVigilant<sup>®</sup> in Camera

---

Utilizes camera's built-in firewall to:

- Detect unauthorised configuration access attempts
- Detect potential intrusions/attacks
- Block unauthorized network traffic
- Send real-time alerts to Control Center

Information displayed in Control Center:

- Source IP address
- Destination port
- Protocol (TCP, UDP etc)
