# SG Rapid PTZ – Pre Integrated & Configured Solution

# How It works

- 1 Wireless Seismic sensor detects intrusions
- 2 Receiver forward alarm data to IP PTZ camera
- 3 IP PTZ camera point to location of alarm
- 4 Command and Control software displays alarms and real time video

# Kit Advantages

---

---

Invisible System

Fog Resistant

Ultra Low Power

Maintenance free

Wind Resistant

-40°C - +85°C

- Simple and fast Installation, maintenance free.
- Ready To Install (integrated solution): wireless sensors, IP PTZ camera, C&C software.
- Real Time Alarm Validation via IP PTZ camera.
- Immune to environmental conditions.
- Battery Operated sensors for 8/19 months.
- Optional Interface to 3<sup>rd</sup> party sensors/system.

# Kit Components & optional add-ons

---

## What's Included

- 8 X Wireless seismic sensors
- 1 X Wireless Receiver (controls IP PTZ camera)
- 1 X IP PTZ camera
- 1 X C&C Software

## Optional Add-ons

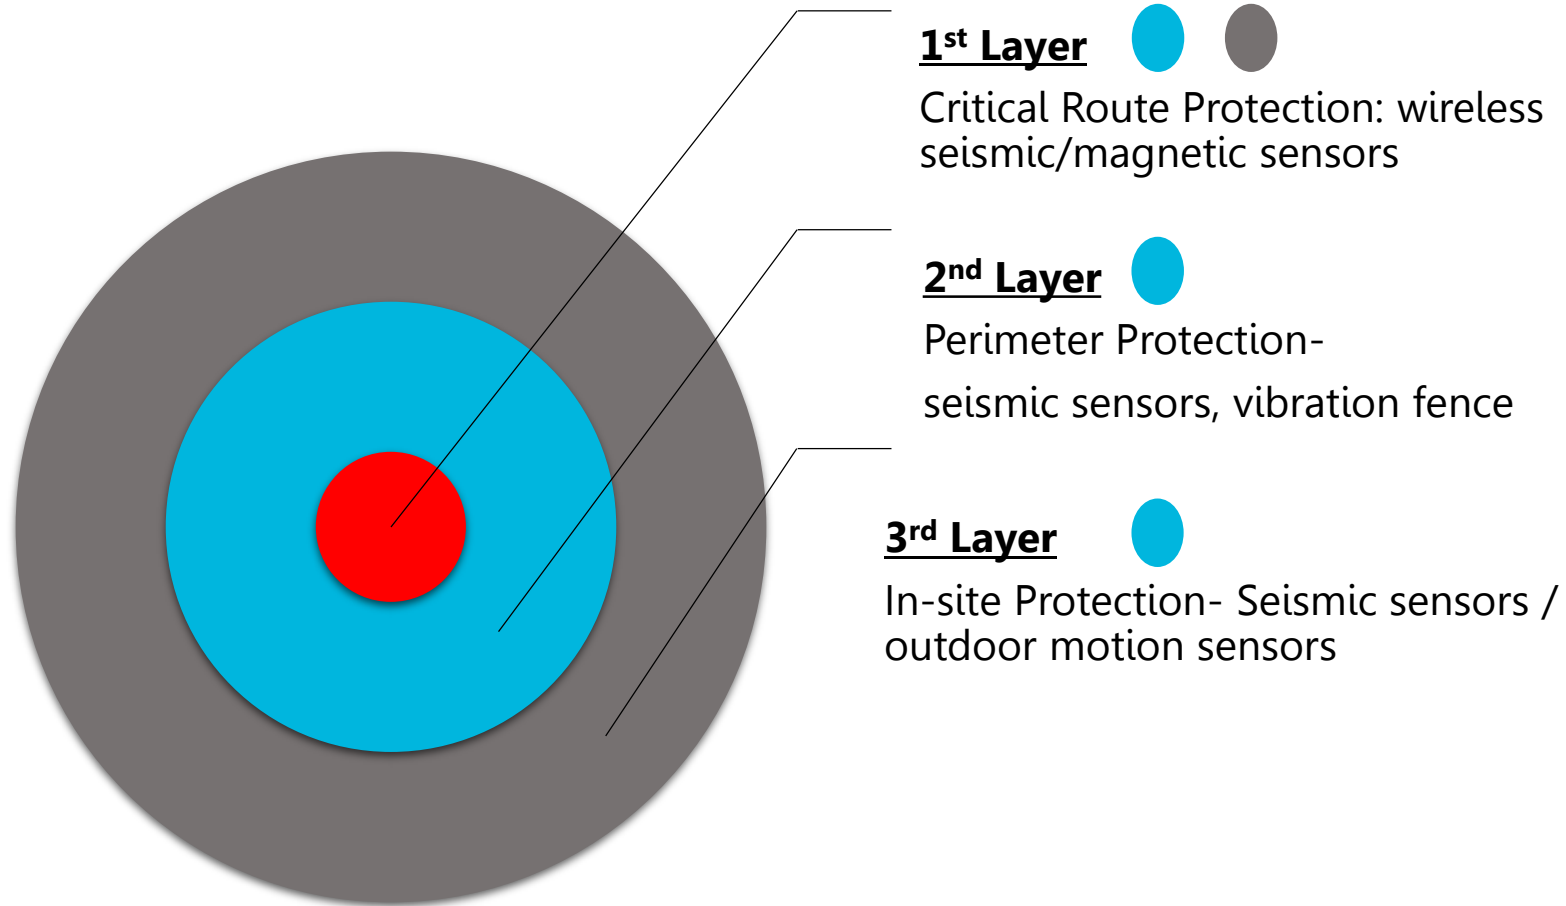

- Wireless magnetic sensors
- External input wireless module (to integrate vibration fence/motion sensor))

# Security Concept- Multiple Layers of Protection

---

---

- Permanent Installation
- Mobile Installation

# Thank You
