

Additional Benefits

In addition to providing site security, the WCCTV Tower can also be used as a project management and Health and Safety tool. It is possible for office based personnel to access the cameras during working hours and review the recorded images to solve on-site problems and/or check regulations are being followed by personnel and sub-contractors.

Utilising the additional video output channels on the HD Site Tower also allows for the addition of secondary HD cameras that can be used to produce stunning time lapse videos of your construction or demolition projects.

Secure Networks

WCCTV work in close partnership with mobile phone operators to provide their own bespoke privately secure networks. These relationships ensure continuity of supply, and also provide cell site upgrade and fault information.

Working closely with network operators also enables WCCTV to ensure its equipment is future-proofed.

Complete Managed Services

At WCCTV we do much more than just provide security equipment, we provide a full range of services to make our customer's lives as easy as possible.

Managed services we provide include:

- Site surveys, installation and maintenance
- Redeployments
- Alarm monitoring and response (BS8418 approved)
- Performance reporting
- Liaison with third party keyholders
- Mobile Wi-Fi hotspots
