

2016 new features

Smart Guard

*Enhanced features for motion detection.
Clear and condensed notification content.*

*Will be activated and have screenshots when an object moves or somebody brokes into your home after the function is turned on.
Will NOT keep sending notifications when object continues to move, but will take screenshots.
Will send notification and take screenshots again if object moves after staying static for 3 minutes.*

Time Album

*Keep every memorable moment in life.
List memorable moments in chronological order.*

*Choose the time period you want,
NetVue will take screenshots based on your setting.
You can quickly review the screenshots for each day as a short fun video.
To do so, simply touch the play button.
It'll remind you what you have missed these days.*
