

# Groundbreaking ease and accuracy with IDIS Smart UX Controls

**IDIS DC-S1283WHX** Full HD 30x Optical Zoom PTZ

- Smart UX Controls
- Easy installation with NVRs
- Full HD (1080p) resolution
- 30x Optical Zoom
- AF optical zoom lens
- (f=4.3 129.0mm / F1.6 5.0)
- Vandal proof/IP66 support
- Built-in heater
- True WDR (120dB)

- Day and night (ICR)
- Low light enhancer
- DIS (Digital Image Stabilization)
- micro SD/SDHC
- Two-way audio
- Alarm in/out
- PoE (IEEE 802.3af class 4)
- Supports ONVIF

# FEATURES OFIDIS 30x PTZ CAMERA

# **Smart UX Controls**

## Sling Shot / Rubber Band Controls

IDIS Smart UX Controls present operators with an advanced and simple to use user interface compared with conventional PTZ controls. Smart UX Controls deliver super smooth PTZ operation, enabling viewers to easily monitor images by panning images at different speeds and in different directions.

Aim and click any part of the image to quickly view a specific object, person, or area.

Simply draw a rubber band anywhere for easy and smooth PTZ control.

DirectIP network cameras provide high resolution image quality using mega-pixel image sensors and quadruple multimedia data streaming technology. Utilizing true plug-and-play, once installed and connected to DirectIP NVRs, the system will automatically display live video without any configuration.

## **30x Optical Zoom**

Capture high-quality, detailed images from great distances with the built-in 30x optical zoom lens.

Wide Angle

At 30x Optical Zoom

## **Powerful Weather Resistance**

IP66 Support: With an IP66 rating, DC-S1283WHX is resistant to all environmental conditions.

Built-in Heater: The IDIS DC-S1283WHX can cope with extremely cold weather conditions.

**Operating Temperature** -40°C ~ +50°C (-40°F ~ +122°F)

#### Wide Dynamic Range

The Wide Dynamic Range (WDR) function provides clear images even under back light conditions, such as a person in front of a bright window, where as a typical camera renders objects in the dark as hardly visible.

Dynamic Range True WDR (120dB)

## **Digital Image Stabilization**

IDIS digital image stabilization (DIS) technology compares video data from recorded images to detect shaking camera movement, most often from wind. The camera creates a pixel buffer by recording extra pixels outside of the visible frame. When the camera vibrates or shakes, the camera shifts the visible frame to reduce the jarring effect on the video image.
