CAFM Explorer®

The software solution for facilities management

Transform the way you work

CAFM Explorer® provides complete visibility of all your assets, costs and risks, enabling you to take a proactive approach to the management of your facilities, pre-empting problems and boosting productivity.

Available as on-premise or cloud-based; it's the total solution to all your facilities management requirements – with a comprehensive range of modules all in one package, no hidden extra costs or the need to purchase additional functionality. The intelligent integration of modules supports automation of manual tasks to drive efficiencies and enable real-time reporting.

CAFM Explorer® empowers your facilities team with the tools to proactively monitor and manage all tasks related to maintenance, compliance and safety across your estate.

Property Management
Simplify property management through consolidation of all survey, health and safety, tenant, lease and rental data in an accessible database.

Maintenance management
Coordinate reactive and planned maintenance through a help desk application that issues alerts, generates work orders, displays work schedules and tracks activity against SLAs.

Asset register
Scan and record assets via barcode from mobile devices on to a single database, giving you a 360-degree view of all your assets.

Mobile workforce management
Track, manage and support engineers and contractors in the field, verify jobs, undertake dynamic risk assessments and create asset data, via mobile devices.

Self-service web portal
Provide increased responsiveness and transparency to customers and reduce enquiries with web and mobile access to log work orders.

Dashboard and reports
Gain a real time view of your operations via customised web dashboards and streamline reporting through export of data to third-party systems.

- Easily co-ordinate planned and reactive maintenance

- Maintain a central asset register

- Simplify external contractor management

- Centralise FM documentation

- Enable accurate reporting and real-time view of operations

"The CAFM Explorer® software has enabled the facilities staff, as well as academics and students in accommodation, to get the fast well-coordinated maintenance service they deserve."

University of Salford

"The savings we've generated as a result of using CAFM Explorer® mean that it's already paid for itself."

The Hippodrome Casino
