The Netvue logo is displayed in white lowercase letters on a large blue cloud-shaped background. To the right, there are two smaller, overlapping grey cloud shapes.

What's Netvue Cloud?

Netvue Cloud is the key component of Netvue's IoT, which makes it possible for you to enjoy a connected and user-friendly home security monitoring system. The Cloud is structured upon Amazon Web Services, which has highly reliable performance and global node distribution, to ensure a quick, stable and safe data storage and access.
