# iWAVE 2-Way DT

(RWX95DT/RWX95DTPT)

RISCO Group is pleased to announce the launch of its Wireless 2-way iWAVE™ DT/ DT PET Detector. The 2-way iWAVE™ DT/ DT PET wireless detector is a stylish wall mount and dual technology (DT) detector with PET immunity up to 36kg (80lb) ideal for homes, offices and small commercial installations. Dual technology utilizes both microwave and PIR channels for higher catch performance and false alarm immunity in harsh environments.

The 2-way wireless communication provides higher security, reduced RF traffic and enables remote control & diagnostics.

iWAVE™ is easy to install using a simple bracket to wall installation, it also has a dedicated battery compartment that allows easy battery replacement that can be performed independently by the user.

The new iWAVE Wireless DT is compatible with RISCO Group's 2-way wireless systems adds to RISCO Group's series of uniform-look wireless detectors providing a consistent look in every installation.

## Features and benefits

- Coverage: 15m (40') 90°
- Dual MW and PIR technologies
- K-band microwave for superior performance and false alarm immunity
- Green Line™ Technology for a safer environment
- Pet friendly up to 36kg (80lb) with Variable Pet Threshold (VPT™)
- 2-way wireless communication for higher security, lower battery consumption and remote parameters setting.
- Simple bracket installation and easy battery replacement by end-user
- Includes 2 long-life 3V lithium batteries
- Compatible with RISCO Group's 2-way wireless systems
- Ideal for homes, offices and small commercial installations
