

## Fire Safety Engineering

At Global, our team of fire engineers support the construction industry in a number of different ways. This ranges from completing comprehensive fire strategies that meet the various RIBA stages of construction through to fire engineered installation solutions.

## Independent Fire Scrutineer

In line with the proposed ICA framework, we have developed our Fire Scrutineer role to support clients throughout the Golden Thread. Global are able to provide specialist knowledge on all areas within your property scope. We complete regular inspections during the design and construction phase to ensure that installations are completed in line with manufacturers test solutions.

Throughout the project, Global have provided professional and knowledgeable support in their role as Independent Fire Consultants.

## CONTACT US

We pride ourselves on our dedicated team of experts providing top quality services.

The Global Group provide the complete approach to fire safety.

# GLOBAL TECHNICAL SERVICES

[www.globaltechnicalservices.co.uk](http://www.globaltechnicalservices.co.uk)

## Accredited Professionals You Can Trust

At Global, fire safety is at the core of everything we do. We are passionate about delivering high quality, innovative fire engineering solutions for various building types.

We hold a large degree of experience across various sectors including social housing, healthcare, commercial properties, education and hospitality.

## Why choose Global?

Global are one of the largest independent Fire Safety Engineering companies in the UK. We have a number of offices and depots across the UK, giving us comprehensive coverage throughout. We cover all areas of England, Wales and Scotland.

- ✓ Highly qualified and experienced staff with relevant accreditations throughout the business
- ✓ Competitive pricing combined with a high quality service
- ✓ A bespoke service tailored to individual clients requirements
- ✓ All services provided from our in-house team, from project conception through to completion

## Your Fire Safety Experts

Unlike our competitors, Global specialise in purely Fire Safety. That means we're experts in what we do and commit fully to understanding all regulation changes. Regardless of your business type and size, we can help keep your premises safe and compliant.

- **COMPLETE APPROACH TO FIRE SAFETY**  
Providing an extensive range of fire safety solutions, including Passive, Active and Consultancy works.
- **INDIVIDUAL APPROACH TO EVERY CLIENT**  
Offering a bespoke approach to meet the needs of each client individually.
- **MINIMIZE RISK WITH UPDATED TECHNOLOGIES**  
We are committed to investing in the latest technologies within the industry to ensure complete compliance.

**70,000+**  
People Protected From Fire Every Night
