Why choose us?

What are our products different from other similar products?

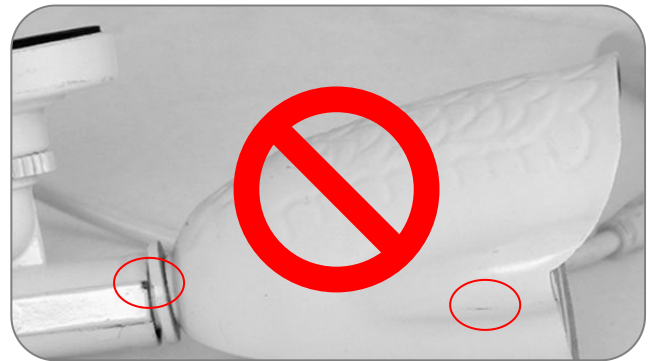

PK

Our Products

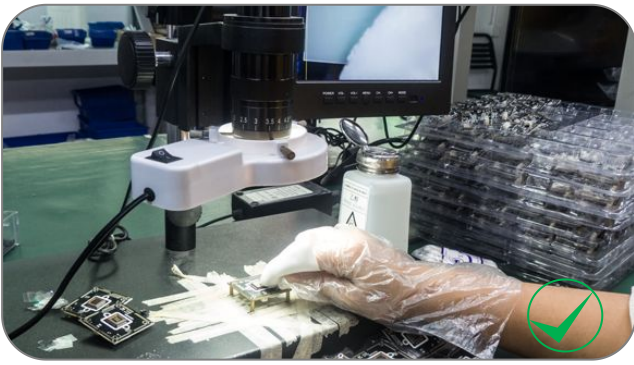

To check all incoming materials by QC, ensure to guarantee all products in good quality.

Ordinary Products

The ordinary incoming products are without any QC, Poor incoming influence poor quality!

In order to guarantee the product quality, We remove dust with 800X magnifier, wipe lens with alcohol.

Simple wipe, dust-free is not good, induce poor picture quality

All of our products pass the high-low temperature test, in order to ensure our items can work well in different temperature.

Ordinary product not test in poor work conditions.

Our products are packed by strong white Box material, related accessories are putted in separate bag, to avoid any damage or Scratch and all parts in good order.

Ordinary products are packed grey box, products accessories are putted at random. All items are damaged or scratched and in a mess.

Ensure high quality product, our product have a aging test and QC group test.

Ordinary products are stored at random. have damage or scratch.
